Introduction to Data Science

Anjali Sinkar

AI & Data Science Graduate | Former Programmer Analyst Intern @ Cognizant | Python • SQL • Machine Learning • AWS • ETL • Data Analytics
India

Summary

I enjoy building software that transforms data into intelligent solutions. I'm an AI & Data Science graduate with internship experience at Cognizant, where I worked with Python, SQL, ETL, AWS, and Machine Learning fundamentals while gaining exposure to real-world software development and business problem-solving. I've built projects including an AI-powered Virtual Patient Recruitment Platform and a Smart Mental Health Companion, giving me hands-on experience in machine learning, NLP, backend development, and end-to-end application design. Areas of Interest ✓ Software Engineering✓ Artificial Intelligence & Machine Learning✓ Data Engineering✓ Data Science & Analytics I'm currently seeking opportunities where I can build impactful products, solve challenging engineering problems, and grow alongside talented teams.

Experience

Cognizant

Programmer Analyst Intern
February 2026 - May 2026 (4 months)
Chennai

• Completed structured training in Python, SQL, Machine Learning, ETL, Data Warehousing, and Cloud fundamentals.

• Applied Python and SQL to solve business-oriented case studies, perform data analysis, and strengthen problem-solving skills through hands-on assignments.

• Learned ETL workflows, database concepts, and data warehousing principles to understand data integration and processing.

• Explored Machine Learning fundamentals, data preprocessing techniques, and model evaluation through practical exercises.

• Gained exposure to the Software Development Life Cycle (SDLC), software engineering best practices, and collaborative development methodologies.

Education

Dr. D. Y. Patil Institute of Technology, Pimpri, Pune

Bachelor of Engineering (B.E.), Artificial Intelligence & Data Science · (2022 - 2026)
